Board Review and Consideration to Accept the Updated Driver and Vehicle Use Program Policies 2023

Background:

The Vector Control Joint Power's Association (VCJPA) provides self-insurance for liability, workers compensation, property, and automobile, to the district and other mosquito and vector control agencies in California. Periodically VCJPA provides updated guidance and policies for member districts to adopt as part of its risk management program, and to clarify the terms of coverage for the auto program.

Fiscal Impact:

None

Staff Recommendation:

Staff recommends the Board accept the Updated Driver and Vehicle Use program policies as presented.

- B. Verification of Liability Insurance Form
- C. Vehicle Accident Driver Procedures
- D. Vehicle Accident Driver Report Form

The Driver Safety & Vehicle Use Program has been developed to enhance safety, to reduce accidents, and, to ensure compliance with state and federal regulations. The information outlined in this program complies with generally accepted best practices and legal requirements for safe motor vehicle operations. All employees who operate a vehicle on District business are required to comply with this program. As with any District policy, failure to comply will subject the employee to discipline, up to and including termination.

At a minimum, the District requires the below to identify, hire, and retain safe drivers and to ensure ongoing safe driving practices.

- Job descriptions will clearly identify if vehicle operation is a job requirement.
- New employee background checks are conducted.
- Motor vehicle reports (MVRs) from the California Department of Motor Vehicles ("DMV") are obtained and reviewed for employees who drive District-owned vehicles, and/or who drive personally owned vehicles while on District business, to determine if the employee has an acceptable driving record.
- Employees must possess a valid driver's license legally to operate the class of vehicle(s) they drive in their employment.
- Employees who drive their personally owned vehicle on District business must show proof of automobile liability insurance in accordance with the "Personally owned Vehicles" section, below.
- Employees who drive on District business are required to comply with all applicable laws and regulations.

DMV Employer Pull Notice Program (EPN)

Employees who are authorized to drive a District-owned and/or a personally owned vehicle for District business must consent to being enrolled in the California DMV Employer Pull Notice (EPN) Program. The DMV issues motor vehicle reports (MVRs) on every person registered in the EPN Program. The DMV automatically issues MVRs annually and whenever the driver is involved with certain driving-related legal actions or activities. Employees who participate in this program sign a DMV form Authorization for Release of Driver Record Information. (Appendix A) The supervisor will work with Human Resources and the General Manager when determining the most appropriate intervention per the policy stated below.

Consequences for Unacceptable Driving Records

The State of California, has a point system that is used to track infractions and accidents. The Employee's MVR will show whether they have been assessed points by the DMV for e.g., speeding tickets, unsafe driving, vehicle accidents, DUI, etc. If an employee's record shows: 4 or more points in a 12-month period; 6 points in a 24-month period, or 8 points in a 36-month period, the District may take action including, but not limited to:

- Counsel or warn the employee that their employment may be jeopardized if they have additional violations or accidents;
- Shift the employee to a non-driving position;
- Require driver training course(s) to reinforce driving safety; and/or
- Restrict or eliminate use of personally owned vehicles for District business.

District-Owned Vehicles

These requirements apply to employees who are assigned to, and/or drive a District-owned vehicle while conducting District business.

- Unless otherwise approved in advance by the GM, District-owned vehicles are not to be used for personal purposes, including the commute to and from home.
- Designated "on-call duty" employees may be authorized to drive District vehicles home with the advance approval of the Assistant Manager.
- Except in an emergency no one except an authorized employee may drive a District vehicle.
- Drivers must comply with all applicable laws and regulations.

Personally owned Vehicles

At times it may be necessary and expeditious for employees to use their personal vehicles, as opposed to a District vehicle, when conducting District business.

District employees are not permitted to use personally owned vehicles to conduct District business without prior approval of the General Manager or designee.

Before authorizing an employee to use a personally owned vehicle for District business, the General Manager, or designee, shall determine that: (1) the business purpose is valid; (2) the use of a personally owned vehicle is in the best interests of the District; and 3) the employee carries insurance in accordance with minimum requirements.

Insurance Requirements

Employees who are approved to use their personally owned vehicles on District business must maintain automobile liability and property damage insurance coverage in accordance with minimum requirements for bodily injury coverage and property damage coverage.

- Covered employees must sign a declaration upon hire, and annually thereafter, stating they carry the minimum required insurance coverage (refer to Appendix B). If the insurance coverage is modified, canceled, terminated, lapsed, or curtailed for any reason, the employee must immediately notify the Assistant General Manager or designated HR contact.
- In case of an accident and subsequent claim, the coverage provided by the employee's personal insurance applies first. The District will pay the insurance deductible for the employee (if applicable and not reimbursed by others, e.g., another at-fault driver) up to a maximum of \$500 if an employee is involved in an accident in their personally owned vehicle while conducting District business, and when the requirements of this policy have otherwise been met. The District is not responsible for any increase in an employee's insurance premium as a result of an accident.
- Employees are expected to maintain the vehicle in reliably safe mechanical condition.

Electronic Wireless Communication Devices

The following requirements address the use of electronic wireless communication devices (e.g., cell phones, etc.) while driving District-owned vehicles and personally owned vehicles while on District business. The California State Vehicle Code's current definition of an "electronic wireless communication device" includes:

- Broadband personal communication device;
- Specialized mobile radio device;
- Handheld device or laptop computer with mobile data access;
- Pager; and
- Two-way messaging device.

District employees shall not operate a District-owned vehicle or personally owned vehicle on District business while using an electronic wireless communication device unless the device and vehicle meet the conditions noted below.

- California law and District policy prohibit driving a motor vehicle while holding and operating a handheld wireless telephone or a wireless electronic communications device, unless the device is mounted on the vehicle's windshield or is mounted/affixed to a vehicle's dashboard or center console in a manner that does not hinder the driver's view of the road.
- The driver's hand may only be used to activate or deactivate a feature or function on the device with the motion of a single swipe or tap of the driver's finger, but not while holding it. *The law does not apply to manufacturer-installed systems that are embedded in a vehicle.*

District employees without a hands-free wireless communication device may use their device only after safely exiting a highway, pulling safely to the side of a road, and stopping the vehicle.

Vehicle Accident Procedures

Vehicle accident procedures described below and in Appendix C and D must be followed in the event of an accident/incident involving District-owned vehicles or personally owned vehicles while on District business. These procedures must be followed even in the event of minor incidents and collisions, and even if there do not appear to be any injuries and/or property damage. Drivers are required to immediately report the incident to their supervisor, even outside of business hours.

The Vehicle Accident Procedures outlined in Appendix C, and Appendix D contain the Vehicle Accident Report form. Employees must ensure that any District-owned vehicle they drive, and any personally owned vehicles authorized for business use, have a copy of the procedures and form in the vehicle. In the event of an accident, the District driver is required to review the procedures, complete the Vehicle Accident Report form, and turn it into the supervisor as soon as practicable.

The driver must notify police in the event of:

- Estimated property damage of more than \$750;
- Anyone was injured (no matter how minor); and/or
- Anyone was killed.

Training

All employees complete a District-provided classroom-based driver training program. In addition, employees whose job responsibilities include driving also complete behind-the-wheel training.

Record Keeping

The following documentation is maintained by the District for at least two years:

- Driver training records for each employee, including the employee's name, training dates, type of training, and training providers.
- Motor Vehicle Reports (MVR)
- Vehicle insurance information from drivers who use their personally owned vehicles on District business.
- Documentation regarding accidents related to District business.

Program Evaluation

The Driver Safety & Vehicle Use Program is reviewed periodically by the District Safety Committee to meet ongoing needs.

Appendix C

Placer Mosquito and Vector Control District Vehicle Accident Driver Procedures

In the event of an accident involving District-owned vehicles, or personally owned vehicles while on District business, compliance with the below is required:

Take Steps to Prevent Further Accidents

- Park safely out of traffic flow if vehicle is operable.
- If available, properly set out red emergency warning triangles.

Remain Calm

- Do not argue, accuse, or accept blame for accident.
- Discuss details only with police and your employer.

Call 9-1-1 if medical assistance is needed or report of injuries

- Do not attempt to move an injured person.
- Provide basic first aid only.

Contact Police When

- Estimated property damage of more than \$750;
- Anyone was injured (no matter how minor); and/or
- Anyone was killed.

Obtain police report number & officer ID and give to Assistant Manager.

Obtain Witness Information

- Name(s)
- Address and Telephone numbers

Exchange Information with other drivers involved in the accident.

- Driver's name/address/telephone number
- Driver's license number/vehicle license number
- Insurance policy number, agent, and insurer
- See accident report form for details

Vehicle Accident Report Form

- Make note of street names, directions, and landmarks
- If possible, complete the form immediately following the accident or as soon as feasible thereafter.

Placer Mosquito and Vector Control District VEHICLE ACCIDENT REPORT FORM

The employee should complete the below as soon as possible following the accident, and provide the completed report to [the supervisor?].

Field Operations and Surveillance Report Prepared September 11, 2023

Assistant Manager: Jake Hartle Supervisors: Mike Ashley, Scott Schon

Mosquito Surveillance & Vector-borne Disease Testing

• Adult Mosquito Abundance

- The abundance of *Culex tarsalis*, shows a downward trend the past couple of weeks (Figure 1). This decrease is due to rice fields being drained of water and prepared for harvest decreasing the main larval sources.
- Figure 2 shows the typical yearly adult abundance peak of *Anopheles freeborni*. Rice fields are a main source of larval production for this species. As the rice harvest begins, this species will migrate into the urban areas where they will overwinter as adults. We typically see an increase of service requests as they seek harborage in and around manmade structures such as houses and garages.
- Figure 3 shows the abundance of *Culex pipiens,* we expect this species to continue to decrease over the next couple of weeks.

Figure 1: *Culex tarsalis* adult mosquito count per trap night (red line), compared to the three-year average (green bars) by calendar weeks. (Week 36 represents September 3-9)

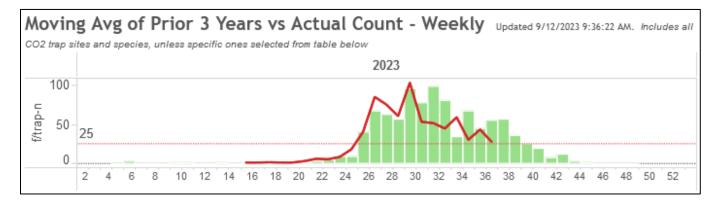

Figure 2: Anopheles freeborni adult mosquito count per trap night (brown line), compared to the three-year average (green bars) by calendar weeks. (Week 36 represents September 3-9)

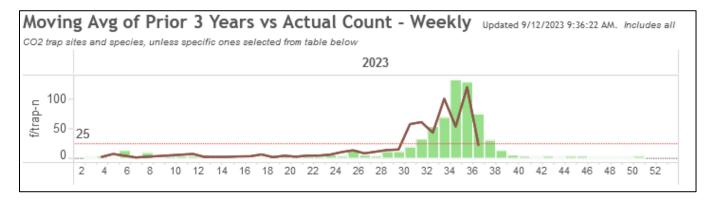

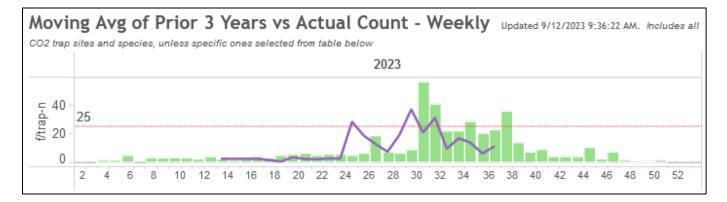

Figure 3: *Culex pipiens* adult mosquito count per trap night (purple line), compared to the three-year average (green bars) by calendar weeks. (Week 36 represents September 3-9)

• Invasive Mosquitoes

- Invasive *Aedes* surveillance continues to detect endemic populations of *Aedes aegypti* in the Cherry Glen, Hillcrest, and Thieles Manor neighborhoods in Roseville.
- Door to door inspections, additional trapping and adulticide and larvicide applications are being performed in response.
- We continue to trap at new locations in Western Placer but have not detected other populations.

• Vector-borne Disease Testing

- Mosquitoes: **170** WNV positive mosquito samples (*Cx. tarsalis*) out of 1449 tested, have been detected in 2023..
- Dead Bird: **41** positive birds (WNV) out of 144 tested, have been detected in 2023.

Positive Detections for 2023 Year to Date (January 1- September 11)			
	WNV	SLE	WEE
Mosquito Samples	170/1449	NA	NA
	(8.5%)		
Dead Birds	41/144	NA	NA
	(28.4%)		

Operations

- Source Work
 - In the month of August, Vector Control Technicians completed 120 service requests.
 - 427 treatments to both adult and larval mosquito sources. Including 13 truck adulticide missions covering 24 spray blocks and 4 larvicide A-1 WALS applications for invasive mosquitoes.
- Aerial Larvicide Treatments
 - The last aerial larvicide treatment to rice was made on August 31.

• Aerial Adulticide Treatments

- This season, in response to high abundance of adult *Culex tarsalis* and positive West Nile virus mosquitoes, we have made 9 aerial adulticide ultra-low volume (ULV) applications and treated approximately 120,000 acres in Placer County.
 - Application locations include areas of Lincoln, Elverta and the West Roseville neighborhoods of West Park, Sun City, Sierra Vista, and rural agriculture areas of west Placer County.
- Ground Treatments
 - In response to high abundance of adult *Culex tarsalis*, positive West Nile virus mosquitoes, and invasive *Aedes* detections:
 - August: 13 ground adulticide truck applications covering 24 applications blocks.
 - 4 A-1 WALS applications for invasive mosquitoes

General Manager's Report

Joel Buettner, General Manager 09/14/2023

- I have communicated with President Gayaldo letting her know that I will be attending the September Board meeting remotely due to some family commitments.
- **CalPERS Claim** At the direction of the Board I worked with VCJPA and District Counsel Doug Coty to reject the Cari McCormick v. CalPERS claim. The original advice was to return the claim for insufficiency, but, due to delays in communication with VCJPA, I was unable to complete this by the deadline. Instead, I worked with our District Counsel to mail a letter rejecting the claim.
- Vehicle Accident Claims The District has received one claim, and will potentially receive a second, related to two vehicle accidents involving district vehicles. These claims have been forwarded to the Vector Control Joint Powers Association (VCJPA) which handles the district's self-insurance for auto, property, and liability.
- Monterey DART Symposium I have accepted an invitation to speak at the 2023 Monterey Drone Automation and Robotics Technology (DART) Symposium in Monterey, CA from October 11- 13, 2023. The purpose of this symposium is to bring together experts and enthusiasts in the field of drone, automation, and robotics technologies with entrepreneurs, policy makers, educators, and community-based organizations to explore advancements in drone technology and workforce development implications of this new sector.

UPCOMING EVENTS

- MVCAC Fall Meeting October 2-4, 2023 Palm Springs, CA
- MVCAC Annual Conference January 20-24, 2024 Monterey, CA
- AMCA Annual Conference March 4-8, 2024 Dallas, TX
