8. **Board Review and Consideration to Contract with Enterprise Fleet Management**

Trustee Gayaldo voiced her opinion on where the money to support this contract would come from. This could involve identifying the budget allocation. Trustee Gilbert also had some concerns regarding vehicle mileage, current mileage of the trucks that will be replaced, potentially suggesting that some of the vehicles may not yet justify replacement based on their usage and condition.

The Board reached a consensus to table item #8 until the next meeting. Trustees expressed the need for additional information regarding current truck usage and mileage data for the vehicles proposed for replacement and the funding source for the contract and how it aligns with the budget.

9. Staff Reports

Board Review and Consideration of the Contract with Enterprise Fleet Management

Background:

At the November 18, 2024, board meeting, the board asked for additional specific truck replacement information, which is attached. Additionally, additional clarity on the funding plan for moving to the proposed Enterprise Fleet contract is included in the Fiscal Impact section of this report below.

The following is from the staff report of the November 2024 board packet for reference:

In 2022, the District contracted with Enterprise Fleet Management to acquire two pickup trucks when the global truck supply was extremely limited following the COVID-19 pandemic. At that time, the District considered, but decided against, Enterprise Fleet Management's full complement of fleet management services including a maintenance program, fleet analysis and replacement of vehicles to take advantage of resale values of used vehicles. The decision at the time was based on the fact that the District only needed two vehicles, had a relatively new fleet, and felt we were successful in managing our own fleet maintenance and replacement in-house.

In 2024, the District has the following fleet needs:

- 1. Five Ford F-150 pickup trucks need replacement due mostly to age*
- 2. One Ford F-150 pickup truck needs replacement following an accident*
- 3. Due to the Advanced Clean Fleet program of the California Air Resources Board, the District's F-250 and F-350 flatbed trucks require replacement with an electric vehicle, a F-150 or similar sized vehicle, or replacement with waiver with newer models by January 1, 2025.*
- 4. Eventually, the District will need to tackle the issue of electric vehicle conversion, although this may be years away.*
- 5. The District has decreasing capacity among staff to manage vehicle maintenance and replacement due to other priorities in field operations and administration department.*

If we continue replacing vehicles and managing fleet maintenance as we have been, we estimate the cost to replace these trucks outright to be approximately \$250,000, and while maintenance costs should decrease due to newer vehicles, we will continue to centrally manage truck maintenance and pay out of pocket for repairs.

If we decide to go with Enterprise Fleet Management, we will have the option to pay annually for vehicles under a lease agreement with Enterprise Fleet Management. In addition, Enterprise

would track vehicle values and recommend a replacement that provides the best return on investment. Proceeds from these sales will be put back into the vehicle program to acquire newer vehicles or to pay lease payments on existing vehicles. Enterprise also offers a flat rate maintenance program that would cover routine maintenance and could be utilized by each driver as needed for their vehicle.

Attached is information provided by Enterprise Fleet Management, that would address the following:

- 1. Replacement of 11 older F-150 pickup trucks*
- 2. Replacement of the F-250 and F-350 with newer, similar vehicles that would qualify for a CARB waiver and allow those new vehicles to be used by the District for the next 18 years. This would enable our invasive mosquito program to continue and expand if needed.*
- 3. Leverage continued high prices in the used vehicle market to offset vehicle costs by strategically upgrading vehicles and selling older vehicles.*
- 4. Streamline vehicle maintenance by shifting routine maintenance to drivers and increasing the number of available vehicle maintenance providers.*

Fiscal Impact:

Moving to Enterprise Fleet Management will require changing how we budget and fund our fleet. Currently, we purchase vehicles as capital assets solely through our capital designation.

If approved, we propose funding the Enterprise Fleet with a combination of capital designation funds in Year 1 with a gradual transition to operational funds over the course of the 5-year lease (Table 1).

To ensure the capital designation has sufficient funds, we propose to move \$300,000 from emergency designation and \$150,000 from contingency designation for a total of \$450,000 into capital designation. This will fund the entirety of the capital designation portion of the Enterprise fleet funding plan, and cover other planned capital expenditures. If approved, a budget amendment to make these changes will be brought to the board in January.

Following approval of this plan, Enterprise Fleet will work with the District to monitor the entire fleet, and make recommendations to replace vehicles to optimize resale value, and meet future vehicle needs. Since the District fleet will contain mostly newer vehicles, resale proceeds are expected to be higher which will reduce subsequent costs of replacement vehicles.

Table 1: Funding Strategy for Proposed Enterprise Fleet Contract

Enterprise Lease						
FYE		Capital	# of Vehicles	Estimated Proceeds from Sales	Operating	TOTAL
2025	YR1	91,962	13	57,474.00	-	149,436
2026	YR2	119,548			29,887	149,435
2027	YR3	89,661			59,774	149,435
2028	YR4	59,774			89,661	149,435
2029	YR5	29,887			119,548	149,435
		390,833		57,474.00	298,871	747,178

Staff Recommendation:

Staff recommends the Board direct the General Manager to proceed with negotiating a contract with Enterprise Fleet Management to replace 13 district vehicles and enroll the fleet in Enterprise Fleet Management’s maintenance program per the funding plan presented.

Field Operations and Surveillance Report

Prepared December 10, 2024

Assistant Manager: Jake Hartle

Mosquito Surveillance

- **Adult Mosquito Abundance:**
 - Adult abundance traps continue to collect low amounts of mosquitoes.
- **Invasive Mosquitoes:**
 - Invasive *Aedes* traps have been brought in for the season. They will be reset in spring 2024.

Field Operations

- **Source Work:**
 - Field technicians continue to check mosquito sources and respond to service requests in their zones.
- **Unmanned Aircraft Systems (UAS):**
 - On December 10, Scott Schon and Ev Ortiz hosted technicians from Lake County Mosquito Vector Control District. The technicians received an overview of our UAS program and participated in a drone larvicide calibration.

General Updates

Navy/Marine Corps Collaboration:

- Assistant Manager Jake Hartle met with LT Jacob Underwood, MSC, USN Entomologist, to discuss repeating, in 2025, the vector control training that we provided to three Navy personnel stationed at Camp Pendelton last year.
 - Potential Time frame: June or July 2025
 - Navy Preventive Medicine Unit Personnel: 2-3 technicians and 1 Entomologist
 - District staff will provide hands-on training and job shadowing on how the District responds to vector-borne disease and mosquito vectors.

- **MVCAC Planning Session and Fall Board Meeting:**
 - Assistant Manager Jake Hartle attended a MVCAC meeting in San Diego December 2-4
 - Participated in discussion regarding MVCAC goals and Executive charges
 - Reviewed IVM committee charges and discussed current and future charges for all other committees.
- **Congratulations:**
 - Congratulations to Derek Tang for passing all test categories and obtaining his CDPH Gold card.
 - Congratulations to Mellissa Cooke for passing categories A & B, she is planning to take categories C & D in spring 2025.

General Manager's Report

Joel Buettner, General Manager

12/11/2024

- **Sun City Lincoln Hills (SCLH) and Wildlife Heritage Foundation** representatives met with District staff to discuss concerns about District drone operations in the SCLH wetland areas. We reported on this meeting at the November board meeting. We will be following up with SCLH on outreach materials and a timeframe of when drone operations may occur for next season. We will reach out to Wildlife Heritage Foundation to follow up on their concerns over drones impacting nesting shorebirds after the holidays.
- **AMCA Drone Program** the first of three FAA exemptions for mosquito control drone operations for AMCA members has been approved by FAA.
- **Vestis (formerly Aramark)** has been successfully working to replace greasy garments, and seems to be improving its customer service following several meetings with the regional manager and new driver.
- **The General Manager's Annual Performance evaluation.** Due to scheduling and workload challenges, I have not been able to complete my self-assessment in time for the December 2024 board meeting. I would like to reschedule the evaluation closed session to January 2025 to allow time for me to complete and distribute my 2024 self-assessment to the board.
- **Administration**
 - Isabel Alvarez, Admin Assistant, has been trained in the use of the Workday financial system, and is entering invoices and running reports. We thank Isabel for taking on this extra duty while our Accounting Technician is on extended medical leave. Placer County is still providing one staff person to provide additional support for Isabel. Since mid-September, Placer County Auditor-Controller's office has provided a staff person to do routine accounting duties while the District Accounting Technician was on medical leave. This was anticipated to be a relatively short-term arrangement, but has become more long-term. Thanks to Cody Alonzo and the Placer County Auditor-Controller's office for their assistance and on-going support.
 - Meagan Luevano, PIO will be returning to work on a limited basis over the holidays, and full-time starting January 6, 2025.
